## Eglinton East Priority Bus Lanes Installation and Bus Stop Placement

**Timeline:** September 14 until December 31, 2020

**Issued on:** September 14, 2020

\*Content / timeline accurate at time of printing

### What we are doing and why

On July 28, 2020, City Council unanimously approved Priority Bus Lanes along sections of Eglinton Avenue East, Kingston Road and north on Morningside Avenue to Ellesmere Road. This will be the first priority corridor to help improve transit reliability in one of the most heavily used corridors in the city. The priority bus lanes will be reserved for TTC buses, Wheel-Trans and bicycles. This initiative will involve some changes to bus stop locations to improve the speed and reliability of service. Please see the map on the reverse page of the stops. A survey is now available on the project website to give input into project: [www.ttc.ca/rapidto](http://www.ttc.ca/rapidto).

### What to expect

As part of implementing the Priority Bus Lanes on Eglinton Avenue East, construction crews and vehicles will be active along the corridor during the above-noted dates.

#### Pavement Resurfacing (completed by September 18)

- Segments of the eastbound and westbound curb lane will be resurfaced on Eglinton Avenue East between Brimley Road and Cedar Drive.

#### Pavement Marking & Sign installation (completed by November 30)

- Work will begin at Morningside Avenue, continue to Kingston Road and finish at Eglinton Avenue East
- The curb lane along the route will be closed and access to private driveways will be maintained as best as possible.

#### Bus Stop Consolidation and Placement (Estimated: October 15 – December 31)

- 22 Bus Stops located on Eglinton Ave E between Kennedy Ave and Kingston Rd, on Kingston Rd between Eglinton Ave E and Morningside Ave, and on Morningside Ave between Lawrence Ave E and Ellesmere Rd.
- Crews will be removing sod from some boulevards to construct new concrete pads or upgrade existing stops.
- Some re-sodding may have to be completed in the spring of 2021 as work is weather dependent.
- The majority of work will take place on the City right-of-way.
- Private driveways will be maintained as best as possible.
- Temporary lane reductions may be required during the work.

### Work hours

Work will take place Monday to Friday 7 a.m. to 7 p.m., however there may be occasions where crews must work on the weekend. From September to the end of November, there will also be overnight work to install pavement markings.

### TTC Service

Regular service along the route will be maintained, except for night service.

### Accessibility

All stops will be accessible once this work is completed.

Further details, including a feedback survey and a copy of this notice, are available at [www.ttc.ca/rapidto](http://www.ttc.ca/rapidto)
