January 12, 2009

Hon John Gerretsen
Minister of the Environment
12th Floor, 135 St. Clair Avenue West
Toronto, Ontario
M4V 1P5

Dear Minister Gerrestsen,

On behalf of my residents of Scarborough East who reside on the banks of Lake Ontario I would like to extend an invitation to attend a meeting scheduled for January 20, 2009 6:15 p.m. – 9:00 p.m., hosted by Toronto Hydro to discuss and collect community input for the proposed installation of an anemometer within lake Ontario at the base of Markham Road.

Your presence at this venue would be much appreciated by the citizens who would be directly affected by the installation of an anemometer for the purpose of collecting wind testing data for the installation of sixty or more wind turbines. Over 25,000 residents live along this portion of Lake Ontario and I believe it would be an asset to you to hear first hand their, inquires and concerns for the proposed project.

The Guildwood community which sits at the base of my Ward would be most effected. It would be my pleasure to invite you to not only attend the January 20 Toronto Hydro community meeting but to also visit the beautiful Scarborough Bluffs, a heritage asset with a one of a kind view not seen anywhere else in Ontario let alone the City of Toronto.

Sincerely,

Paul Ainslie, Councillor
City of Toronto Ward 43 Scarborough East

- c. Hon Donna H. Cansfield, Ministry of Natural Resources
Hon George Smitherman, Minister of Energy and Infrastructure
